Thorough, Independent Testing and Certification

In 1989, GLI began testing Video Lottery Terminal (VLT) devices and central control systems for many lottery/racing jurisdictions in the United States and Canada. Since then, we have continued to test VLTs, online lottery systems, Random-Number Generator (RNG) software, state and provincial "lotto" games, and Automated Drawing Machine (ADM) systems and software for lottery and racing organizations across the world.

To best serve our clients, we have assembled the most experienced team possible, comprised of over 1,300 professionals ready to serve you. We have separate, dedicated teams of mathematicians and electrical engineers to perform thorough and independent testing. Our professionals have years of experience testing and certifying every type of electronic gaming equipment and technology, including (but not limited to):

- Amusement with Prizes (AWP)
- Bingo/Keno
- Bonusing
- Casino Management Systems
- Bingo - Charitable / Class II / Class III
- Electronic Bingo Systems
- iGaming
- Lottery Gaming
- Mobile/Wireless Gaming
- Networked (Server-based) Gaming
- Pari-mutuel
- Peripherals
- Slot Devices and Systems
- VLTs

Beyond testing, our consulting staff is also prepared to help with complex issues, such as:

- Rule Writing
- Annual Rule and Regulation Review
- New Technology Consultation
- Development of Test Standards
- Development of Auditing Procedures for Accounting and Security Plans

A Global Resource for Constant Learning and Constant Change

We understand that in the gaming industry, the only constant is change. That's why we created world-renowned GLI University® to help regulators keep as up-to-date as possible on new technologies. We also help new regulators understand the testing process and how accurate, thorough testing benefits their jurisdictions. We offer training on various topics, including:

- Cashless Technologies
- Class II Gaming Systems
- Client Server Systems
- Forensics Procedures
- iGaming
- Kiosk Technology
- Math
- Online Accounting Systems
- Network Risk Assessments
- Progressive Systems
- Promotional/Bonusing
- Slots
- Wireless Technologies

We can also create training specific to your jurisdictional needs. Our experts are here to help you.

GLI's core purpose is to be the trusted global compliance and quality expert relied upon by our clients - delivering world-class customer service and value that is unmatched.
