# SAVE TIME, SAVE MONEY, AND GET TO MARKET FASTER. IT'S A WIN-WIN-WIN.

It's this simple: When you find and fix problems early, you save time, money, and get to market faster. That's the power of GLI's Pre-Compliance Testing.
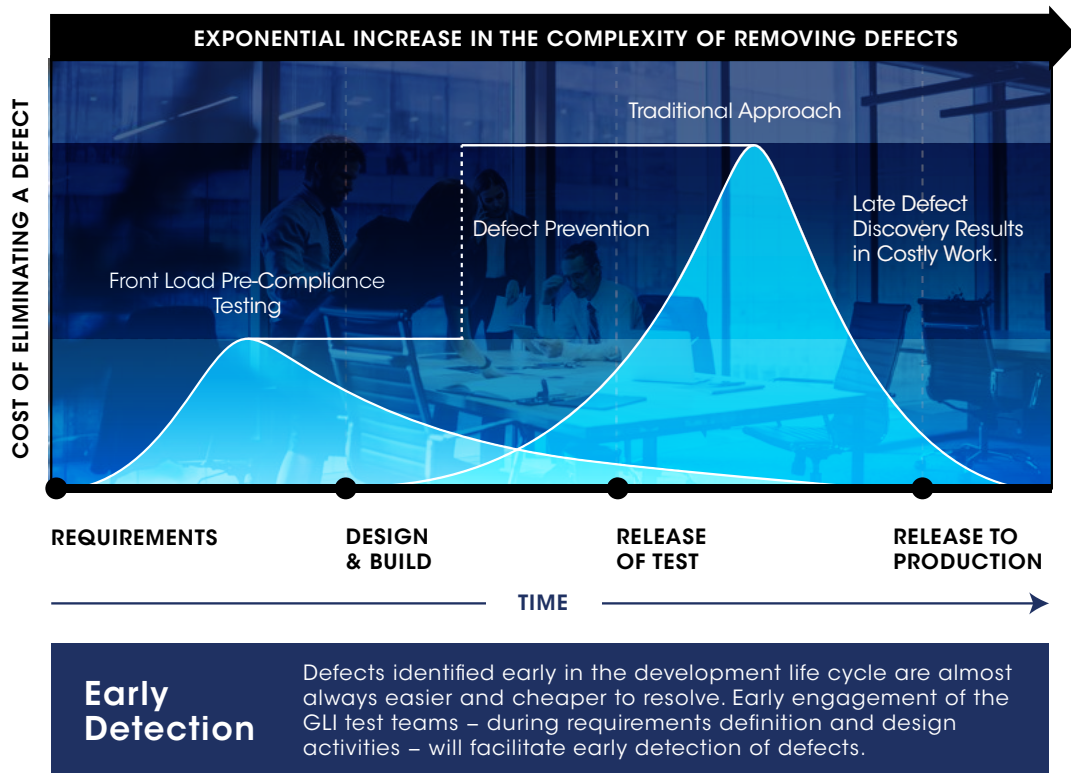

Our Pre-Compliance Testing is specifically designed to detect functional and compliance-related issues early in your product development lifecycle. This empowers you to remediate identified issues early on to best position your course for success.

Our Pre-Compliance Testing is proven to reduce the number of issues encountered during formal regulatory compliance testing, increasing your first pass rate, reducing your overall testing times, and speeding up your time to market. Moreover, it avoids the potential for delays and costs associated with expensive retrofits after progressing too far down the development pathway.

## Key Benefits of Pre-Compliance Testing:

1. Earlier detection of defects or non-compliance issues
2. Reduced number of testing cycles
3. Speeds up time-to-market for earlier revenue generation
4. Reduced overhead and training costs associated with in-house testing staff
5. Creates pre-established product familiarity by GLI resources
6. Ensures higher quality products entering the marketplace

Hey, we're engineers, and we love charts and graphs that illustrate results, and the results of our Pre-Compliance Testing speak for themselves:

**EXPONENTIAL INCREASE IN THE COMPLEXITY OF REMOVING DEFECTS**

COST OF ELIMINATING A DEFECT

Traditional Approach

Defect Prevention

Late Defect Discovery Results in Costly Work.

**Early Detection**

Defects identified early in the development life cycle are almost always easier and cheaper to resolve. Early engagement of the GLI test teams – during requirements definition and design activities – will facilitate early detection of defects.

# Contact your GLI representative today, and let's talk about how our Pre-Compliance Testing can save you time and money and get you to market faster.

GLI's core purpose is to be the trusted global compliance and quality expert relied upon by our clients – delivering world-class customer service and value that is unmatched.
