Key Features & Benefits

- Works 24/7 – 365. Testing is run around the clock, overnight, and weekends.
- Streamlines the testing process, improving time-to-market.
- Tailored to individual manufacturer's needs.
- Significantly increases coverage and offers the flexibility to configure games on-demand.
- Saves time, money, and improves bottom-line results.
- Simulates real game play and offers absolute repeatability.
- Improves quality, consistency, and predictability of test results.
- Expanded capabilities for Mechanical Reels, Game Recall, RAM Clear, and Jurisdictional Testing.
- Creates peace of mind for suppliers and operators knowing that the game will play and function as intended on the casino floor or desired gaming environment.
- Reusable scripts for resubmission and regression testing significantly reduces time.
