

## **Gaming Laboratories International (GLI) Names Gaming Industry Expert as New Business Development Manager for Italy**

HILLEGOM, The Netherlands (16 December 2013) – Gaming Laboratories International (GLI), the world’s leading gaming testing laboratory and technical consultancy, has named gaming industry expert Simona Dutto as the company’s new Business Development Manager in Italy, joining the GLI Europe Development team.

Dutto has dedicated the last 15 years of her professional career to the gaming industry in Italy and the surrounding region, and brings an important mix and depth of experience to GLI. Dutto is based in GLI’s lab in Bologna, Italy.

In her role as Business Development Manager, Dutto will oversee the company’s development efforts related to land-based and iGaming throughout Italy.

GLI Director of European Business Development James Illingworth said, “We are delighted to welcome Simona to the development team in Europe. With her experience and many contacts in Italy and throughout central Europe, she will be a welcome addition to the team.”

Dutto brings a wealth of gaming and sales experience to GLI. Most recently, she served as International Sales Director for Stylgame s.r.l. Previously she was AWP Development Manager for Spielo International, where she was responsible for implementing the AWP strategy in Italy.

She has also served as Manager of Operations and as Regional Sales Manager for Atronic Int. GmbH; Business Development Manager for TCS/John Huxley Ltd.

For nearly 25 years, Gaming Laboratories International, LLC has been the world leader in providing independent testing, inspection and certification services to the gaming, wagering and lottery industry. GLI also offers independent network and information security assessments to its regulatory, lottery and supplier clients. With 21 locations across Africa, Asia, Australia, the Caribbean, Europe, North America and South America, GLI is the only global organization of its kind to hold U.S. and international accreditations for compliance with ISO/IEC 17025, 17020 and guide 65 standards for technical competence in the gaming, wagering and lottery industries.
